page 1 of 1

Request for liaison from the European Hydrogen Association

action required from P-members

reply required by: **2004-03-19**

Dear members,

As you will see in the attached letter, the European Hydrogen Association would like to establish a category A liaison with ISO/TC 197.

When an external organization applies for liaison, the ISO Central Secretariat refers this application to the committee secretariat. As per clause 1.17 of the Consolidated procedures¹ for the technical work of ISO, the secretariat is then required to carry out a full consultation of the P-members of the committee concerned and advise ISO Central Secretariat of the result of this consultation. In case of unanimous approval by the P-members, the ISO Central Secretariat will establish and register the liaison. Negative votes will be dealt with on a case-by-case basis.

As a P-member of ISO/TC 197, you are requested to indicate if you support the establishment of the liaison with the European Hydrogen Association. Please forward your reply to the ISO/TC 197 Secretariat by **19 March 2004**.

Yours sincerely,

Sylvie Gingras, Secretary of ISO/TC197
Bureau de normalisation du Québec
on behalf of the Standards Council of Canada

Enclosure (Annex 1)

¹ The consolidated procedures combine the ISO/IEC Directives, Part 1 and the ISO Supplement.
