

Worldwide Hydrogen Industry Survey

information to **P**-members, **O**-members and liaisons

Dear members,

In addition to the Business Plan Consultation that is being carried out through ISO/TC 197 document **N 281**, ISO/TC 197 in cooperation with ISO is carrying a worldwide survey that is aimed directly at the hydrogen industry.

This survey, which is available on the ISO web site at:

www.iso.org/iso/en/commcentre/news/2004/tc197hydrogen.html

was prepared with the intent of broadening the ISO/TC 197 business plan consultation to reach an increased number of stakeholders.

The results of this survey combined with the consultation of the P-members of ISO/TC 197, which is due on **14 June 2004**, will help the technical committee better serve the needs of all stakeholders. As you know, the technical committee needs to finalize its business plan in time to meet the TMB deadline of 30 September 2004.

We would like to take this opportunity to thank ISO for its cooperation in this matter.

Yours sincerely,

Sylvie Gingras, Secretary of ISO/TC 197
Bureau de normalisation du Québec
on behalf of the Standards Council of Canada
