To the members of ISO/TC 197

REPORT ON COMMON ISSUES BETWEEN ISO/TC 197 AND ISO/TC 58/SC 3

ISO/TC 58/SC 3 and ISO/TC 197 share a common interest in the preparation of ISO 15869-1 to -5 for *Gaseous hydrogen and hydrogen blends — Land vehicle fuel tanks*, under a joint Working Group. The DIS enquiry period has closed and the votes/results are reported by ISO to have been posted on the ISO livelink website. However, the results do not appear to have been made yet available to the ISO/TC 58/SC 3 Secretariat by ISO CS.

It is assumed that the results will be circulated by the ISO/TC 197 Secretariat in due course. Members of ISO/TC 58/SC 3 require the disposition of DIS comments to be done at a joint meeting between ISO/TC 58/SC 3 and ISO/TC 197 (i.e. not by a Chairman-Convenor-Secretariat panel).

Yours sincerely

A handwritten signature in black ink, appearing to read 'f. p. slot'.

F P Slot
Programme Manager
BSI, for the Secretariat of ISO/TC 58/SC 3
