

Agenda item 8.4

Progress report of the
convener of the WG 8

WG 8 Hydrogen generators using water electrolysis process

- The CD covering the industrial and commercial applications was circulated as ISO/TC 197 doc. **N264** on 26 September 2003.
- Results of the circulation was distributed as ISO/TC 197 doc. **N272** on 23 January 2004.

WG 8 Hydrogen generators using water electrolysis process

- A working group meeting was held on 23-24 February 2004 to discuss the comments received from the CD circulation.
- All comments have been addressed, including the harmonization with ISO/TC 197 WG 9.
- The revised CD will be ready for circulation as a DIS in October 2004.
- The WG would appreciate the technical committee support to move forward to DIS.

WG 8 Hydrogen generators using water electrolysis process

- The working group has started working on Part 2 of the standard, which will cover residential applications.
- Three task groups were formed to handle the work
- Estimated date for the first CD: June 2005
