English title

**Transportable gas storage devices — Hydrogen absorbed in reversible metal hydride**

French title

**Appareils de stockage de gaz transportables — Hydrogène absorbé dans un hydrure métallique**

Reference language version:  English  French  Russian

Introductory note

Attached is the second committee draft (CD) ISO 16111 that is being circulated for approval among the P-members of ISO/TC 197. P-members are requested to forward their ballot paper (see attached) to the ISO/TC 197 Secretariat no later than **20 March 2006**.

This second committee draft has been prepared by ISO/TC 197 WG 10. It replaces ISO/TC 197 document **N 304** and addresses the comments that were received during its circulation. The compilation of comments as well as the ISO/TC 197 WG 10 recommendations are included in Annex 1 for your information.

Please note that this second CD will also be forwarded to ISO/TC 58/SC3 *Gas cylinder design* so that they can provide their comments.
