---	---

*Title (English)*

**Transportable gas storage devices — Hydrogen absorbed in reversible metal hydrides**

*Title (French)*

**Appareils de stockage de gaz transportables — Hydrogène absorbé dans un hydrure métallique réversible**

Reference language version:  English  French  Russian

Introductory note

**This draft technical specification is circulated for approval until 3 September 2006. Please return your ballot paper (see attached) to the ISO/TC 197 Secretariat before the deadline.**

**Please note that this draft technical specification addresses the comments received from ISO/TC 197 and ISO/TC58/SC3 members during the circulation of the second committee draft (ISO/TC 197 doc. N 332). It also incorporates special provisions for small canisters with an internal volume of less than 0,12 litres.**

**The ECOSOC Sub-Committee of Experts on the Transport of Dangerous Goods (SCETDG) is interested in this document, provided it is available by the end of this year. This is why we have reduced the normal circulation period from three to two months.**

**The responses to the comments received during the circulation of the second committee draft are attached for your convenience (see Annex 1).**
