

Using and referencing ISO and IEC standards for technical regulations

information to P-members, O-members and liaisons

Dear members,

We are pleased to forward you this new document entitled *Using and referencing ISO and IEC standards for technical regulations* that has just been published jointly by ISO and IEC. This document was developed to convey to regulators the benefits of using and referencing ISO and IEC standards for regulations.

It explains how ISO and IEC standards can be used by governments to support good regulatory practice. It is also useful for those involved in ISO and IEC standardization who wish to engage better with the regulatory bodies relevant to their fields.

Yours sincerely,

Sylvie Gingras, Secretary of ISO/TC197
Bureau de normalisation du Québec
on behalf of the Standards Council of Canada

Enclosures (N 385 Annex A)
