

Nomination of experts in ISO/TC 197 WG 11 *Gaseous hydrogen — Fuelling stations*

action required by P-members by **31 January 2008**

information to O-members and liaisons

Dear members,

As discussed during the last plenary meeting of ISO/TC 197 in Montecatini Terme, the Chair of ISO/TC 197 would like to encourage an increased participation of experts in WG 11 which is developing an international standard **ISO 20012 Gaseous hydrogen — Fuelling stations**.

P-members are therefore requested to consult with their stakeholders from the fueling infrastructure (manufacturers, integrators, regulators) and vehicle OEMs sectors to seek their interest in participating in this project. Nominations should be forwarded to the ISO/TC 197 Secretariat by **31 January 2008**.

Yours sincerely,

Sylvie Gingras, Secretary of ISO/TC197
Bureau de normalisation du Québec
on behalf of the Standards Council of Canada
