**Vote**      **ISO/TC 197 N 375**      Circulation: **2006-09-05**      Deadline: **2007-12-05**English title      **Gaseous hydrogen — Fuelling stations**French title      **Hydrogène gazeux — Stations de remplissage****Results** (the compilation of results is given as an annex)**The following criteria for acceptance has been met:** 66,6 % of ISO/TC 197 P-members voting, agreed to the publication of the technical specification**The draft is therefore:** **Approved** **not approved****Further procedures** (attribution to TC/SC/WG, Project Leader, development procedure, meetings, etc.)

We are pleased to provide you with the final report of voting on ISO/DTS 20012, which was approved as part of the circulation carried out through ISO/TC 197 **N 375**.

As indicated in ISO/TC 197 **N 389**, ISO/TC 197 WG 11 was requested to try to resolve some of the comments - consisting of items of importance for which consensus should be reasonably easy to reach.

ISO/TC 197 WG 11 has successfully carried out this task and we would like to thank the working group for its consideration of these comments of importance, which will contribute to make this Technical Specification better.

The results of the ISO/TC 197 WG 11 work has been integrated into a revised DTS. The response to the comments of importance are included in Annex 1 .

The revised DTS is circulated for your review for a four week period ending on **25 March 2008**. Should you find any errors or omissions, please let us know as we will be proceeding with the publication of this Technical Specification by the ISO Central Secretariat.

Please note that ISO/TC 197 WG 11 will continue its work towards the development of an international standard. All the comments that have not been addressed before the publication of the TS and which are now compiled in Annex 2 will be looked at in this next phase.
