

## Joint ISO/TC 197, ISO/TC 58 *Gas cylinders* and ISO/TC 58/SC 3 *Cylinder design* Chair's statement

for information

Dear members,

We are pleased to forward you a joint Chair's statement between ISO/TC 197, ISO/TC 58 *Gas cylinders* and ISO/TC 58/SC 3 *Cylinder design*. It is foreseen that this joint Chair's statement will lead to improved understanding of the cooperation between the two technical committees and will facilitate the uptake of ISO 16111 standard by the ECOSOC Sub-Committee of experts on the Transport of Dangerous Goods (SCETDG).

This joint statement has been made possible through a series of meetings/correspondence involving the leadership of the concerned technical committees. We would like to take this opportunity to thank Mr. Dey and the Chairs and Secretaries of ISO/TC 58 *Gas cylinders* and ISO/TC 58/SC 3 *Cylinder design* for making this happened.

This paper will be discussed under item 12.1 of the draft agenda of the next plenary meeting.

Yours sincerely,

Sylvie Gingras, Secretary of ISO/TC197  
Bureau de normalisation du Québec  
on behalf of the Standards Council of Canada
