

ISO/TC 197 **N 532**

2011-12-05
page 1 of 1

Update on the activities of ISO/TC 11 *Boilers and Pressure Vessels*

information to **P**-members, **O**-members and liaisons

to be discussed at the ISO/TC 197 plenary meeting under item 12.1 of the draft agenda (**N 523**)

Dear members,

Please find attached the liaison report from ISO/TC 11 that was kindly forwarded by Mr. Mr. John Koehr, the observer appointed by ISO/TC 11 to follow the work of ISO/TC 197. This report provides ISO/TC 197 with the list of standards that have been declared as conforming to ISO 16528-1 *Boilers and pressure vessels — Part 1: Performance requirements* in preparation for our upcoming ISO/TC 197 plenary meeting.

Yours sincerely,

Sylvie Gingras, Secretary of ISO/TC197
Bureau de normalisation du Québec
on behalf of the Standards Council of Canada

STANDARDS & CERTIFICATION

December 6, 2011

To: Ms. Sylvie Gingras
Secretary of ISO/TC 197
Bureau de normalisation du Québec
333, rue Franquet
Sainte-Foy (Québec) G1P 4C7
Canada

Subject: ISO/TC11 Liaison Report to ISO/TC197

Dear Ms. Gingras:

In my capacity as ISO/TC11 (Boilers and Pressure Vessels) observer to ISO/TC197 (Hydrogen), please note the following. The ISO/TC 11 committee has not met since the last liaison report (April 2010) and there is no new activity to report. The following is a listing of standards approved for recognition as conforming to ISO 16528 (Boilers and pressure vessels) Part 1:

- ASME, Section I, Rules for Construction of Power Boilers
- ASME, Section IV, Rules for Construction of Heating Boilers
- ASME, Section VIII, Division 1, Rules for Construction of Pressure Vessels
- ASME, Section VIII, Division 2, Alternative Rules
- ASME Section VIII, Division 3, Alternative Rules for High Pressure Vessels
- CEN/TR 13445-9, Unfired Pressure Vessels
- CODAP 2005, Code for Construction of Unfired Pressure Vessels
- JIS B 8265, Construction of Pressure Vessels - General Principles
- AS 1228, Pressure Equipment - Boilers
- PD 5500, Specification for Unfired Fusion Welded Pressure Vessels
- CSA B51, Boiler, Pressure Vessel and Pressure Piping Code
- AD 2000, Code on Pressure Vessels

Recognition of a standard as conforming to ISO 16528-1 is established through posting of corresponding conformance tables on the official ISO/TC11 webpage:

<http://isotc.iso.org/livelink/livelink?func=ll&objId=7623582&objAction=browse&sort=name>

ISO 16528 is suitable as a normative reference for pressure vessel requirements within ISO/TC197 hydrogen infrastructure standards.

Best Regards,

John J. Koehr, PMP
ASME
Managing Director, Technology & Personnel Certification
