**WG 15 Convenor Vote 2015-06**

Document type: Other committee document

Date of document: 2015-06-18

Expected action: INFO

Background: Here is the CIB vote results approving Dr. Laurent Allidieres as the new convenor for WG 15 for a three year period.

Committee URL: <http://isotc.iso.org/livelink/livelink/open/tc197>

## Result of voting

### Ballot Information

<b>Ballot reference</b>	WG 15 Gaseous hydrogen -- Cylinders and tubes for stationary
<b>Ballot type</b>	CIB
<b>Ballot title</b>	CIB for the appointment of a new convenor for WG 15
<b>Opening date</b>	2015-05-15
<b>Closing date</b>	2015-06-15
<b>Note</b>	<p>We are pleased to inform you that the French ISO/TC 197 Mirror Committee has proposed Laurent Allidieres (see attached cv) as the successor of Hervé Barthélémy, who has been acting as an interim convenor for WG 15.</p> <p>TAB has reviewed the proposed nomination of Mr. Allidieres as the convenor of WG 15, which was received from AFNOR. In TAB's opinion, Mr. Allidieres has sufficient qualifications and experience to serve as convenor of WG 15 and, thus, can be appointed for a standard three year period, which may be renewed.</p>

### Member responses:

<b>Votes cast (18)</b>	Argentina (IRAM) Brazil (ABNT) Canada (SCC) China (SAC) Denmark (DS) Egypt (EOS) France (AFNOR) India (BIS) Italy (UNI) Japan (JISC) Korea, Republic of (KATS) Netherlands (NEN) Norway (SN) Russian Federation (GOST R) Spain (AENOR) Sweden (SIS) United Kingdom (BSI) United States (ANSI)
------------------------	--

<b>Comments submitted (1)</b>	Sri Lanka (SLSI)
<b>Votes not cast (1)</b>	Germany (DIN)

Questions:	
<b>Q.1</b>	"Do you approve of the appointment of Laurent Allidieres as the convener of WG 15 for a period of three years?"

Votes by members	Q.1
<b>Argentina (IRAM)</b>	Abstain
<b>Brazil (ABNT)</b>	Abstain
<b>Canada (SCC)</b>	Approve
<b>China (SAC)</b>	Approve

<p>A new convener should know the background/history of WG15. Dr. Norm Newhouse of USA had been attending all the WG15 meeting and he knows/understands CD15399 (previous CD) and CD19884 (present CD) and also he is knowledgeable enough about pressure tank design and materials evaluation.</p> <p>That's why we Japan had been recommending a new WG15 convener as Dr. Norm/US while we don't know about Dr. Laurent Allidieres's background/career.</p> <p>The most important thing is to return to previous CD15399 in which includes all test requirements while CD19883 is missing its requirements and most of the participating members had been requesting to return to CD15399.</p>
