### **Vote Results Evaluation 2016 Strat Plan and Plenary with comments**

Document type: Summary of voting

Date of document: 2017-02-06

Expected action: INFO

Background: Here are the results from the 2016 evaluations of the meetings in the Netherlands, which include the comments from several member bodies.

These results are the same as those sent out automatically by the ISO ballot system, except they have an N-number and include the US vote along with the comment sheet submitted by Japan.

<p>It defines the evaluation standard (average) as "3".##The ISO-JRC Strategic Planning Meeting was a very good event but Japan considers this time is an standard for evaluation because there is no existing standard due to the first event with#TC197 Plenary Meeting.</p> <p>It defines the evaluation standard (average) as "3".# Japan highly evaluates that WG conveners showed their consciousness that are going to cooperate among#related WGs through some joint presentation of progress by WG conveners.# On the other hand, it is slightly negatively evaluated that many materials for TC197 Plenary Meeting were distributed just before the meeting.# Therefore, Japan would estimate as "4" not "5" this time.</p>

<b>United Kingdom (BSI)</b>	<b>Comment</b>	2017-01-24 09:21:11
<p>I would like to see a strategic planning meeting included in the future, at least at the next plenary meeting.</p> <p>The plenary could be improved by the minutes being made available before the meeting.</p>		
<b>United States (ANSI)</b>	<b>Comment</b>	2017-02-02 20:04:26
<p>The strategic planning meeting was a good exchange and update on activities around the globe.</p> <p>The plenary meeting was fine with regard to reporting the development status of the working groups and conducting the necessary ISO/TC 197 business meeting. The lack of financial support for the secretary is still quite troubling as it will not be resolved until 2018. As a result the secretary is still performing below expectations. With the exception of minutes from the last plenary, the lack of unanimous consent for the resolution to thank Koseki-san was awkward and unfortunate.</p>

Abstain for both questions		

## Template for comments and secretariat observations

Date: 2017.1.24	Document: <b>ISO/TC197 Ballot</b>	Project: Comment from JP
-----------------	-----------------------------------	--------------------------

MB/ NC <sup>1</sup>	Line number (e.g. 17)	Clause/ Subclause (e.g. 3.1)	Paragraph/ Figure/ Table/ (e.g. Table 1)	Type of comment <sup>2</sup>	Comments	Proposed change	Observations of the secretariat
					<p>Dear TC197 Secretary,</p> <p>Thank you very much for your organizing very fruitful meeting of TC197 for the TC197 members.</p> <p>We would like to make a comment slightly with the evaluation for the plenary meeting as follows;</p>		
JP01				ge	<p>It seems that the chairman's speech is too long.</p> <p>A concise speech is better for us because we can understand a point of the speech better and it must bring the valuable time for us to speak and discuss something.</p>		
JP02				te	<p>Although we fully understand that the meeting time was too tight, it is regrettable that Mr. Koseki's presentation for IEC/TC105 liaison report was skipped.</p> <p>He wanted to caution about that ISO/TC197 should consider to develop the standard of performance test methods of water electrolyzers as soon as possible because TC105 has started to develop the performance test methods of water electrolysis as a reverse reaction of fuel cells.</p> <p>A secretary Mr. Jim has his presentation made with PowerPoint.</p>
