# ISOTC 197/WG25

## Transportable Hydride Storage ISO 16111

D. Perreux

## **Revision of ISO 16111**

### ***Transportable gas storage devices — Hydrogen absorbed in reversible metal hydride***

**1) In May 2016 WG25 proposed a CD for revision of ISO16111. The ballot gave the results:  
12 Yes (4 With Comments), 1 No, 7 Abstentions**

The “NO” suggest to remove the informative annexes we added as guideline for

- Internal Volume >150L
- Onboard fixed tank
- Stationary application

**2) A DIS Version, without annexes and taking into account most of the comments was prepared and approved by the WG25 in December 2016. The Ballot process for DIS will start in 2017.**

**3) For the applications not covered by ISO16111, we prepared a TR based on the previous Informative annexes and the revised ISO16111**

### WG25 schedule
