Technical programme manager	ISO	-	-	Mr.	Dryden, Andrew	<a href="mailto:dryden@iso.org">dryden@iso.org</a>

### 3 Work Program

WG15 discussed the draft ISO document 19884 : Gaseous hydrogen — Cylinders and tubes for stationary storage.

Following the last meeting in Paris AFNOR on June 15<sup>th</sup> and 16<sup>th</sup> 2015, the CD ISO 19884 was circulated for CD ballot by ISO secretariat from 14/04/2016 to 14/06/2016.

CD ballot result was negative :

Answers to Q.1: "Do you agree to the circulation of the draft as a DIS?"		
6 x	Yes	Argentina (IRAM) France (AFNOR) India (BIS) Korea, Republic of (KATS) New Zealand (NZSO) Russian Federation (GOST R)
3 x	Yes with comments	Denmark (DS) Norway (SN) United States (ANSI)
4 x	No	Canada (SCC) Czech Republic (UNMZ) Japan (JISC) United Kingdom (BSI)
6 x	We abstain	China (SAC) Egypt (EOS) Italy (UNI) Netherlands (NEN) Spain (AENOR) Sweden (SIS)

Consecutively, the comments submitted during the voting phase were treated by the convenor in view of the December 5<sup>th</sup> and 6<sup>th</sup> meeting held in Egmond Aan Zee, NL.

During this meeting, the document prepared by the convener was reviewed, and actions were discussed to be able to submit a DIS document by 1Q2017, after one more internal review (preferably by email circulation and conf call) by the WG members.

Objective to have a DIS registered before the limit date of September 3<sup>rd</sup> , 2017 is therefore realistic.
