Secretariat: SCC (Canada)

Change of Secretary for ISO TC 197

Document type: Other committee document

Date of document: 2018-06-28

Expected action: INFO

Background: Here is the announcement of a change to the secretary of ISO/TC 197.

Committee URL: <https://isotc.iso.org/livelink/livelink/open/tc197>

Change of Secretary for ISO/TC 197 effective 2018-06-30

For your information, I will be retiring from the BNQ at the end of this month, with my last day of work for the BNQ being Friday June 29th.

It has been a pleasure for me to work with the members of ISO/TC 197 over the last six years and I thank you all for your collaboration.

For your information, I do plan to remain partially involved with hydrogen technologies as both a volunteer and a consultant. I will remain member of the Canadian Mirror Committee and I plan to attend the December ISO/TC 197 plenary meeting in Vancouver, as part of the Canadian delegation. I will try to remain part of the editing committee and help out in any way that I can so that there is a smooth transition to the new secretary.

I have been told that the BNQ is not ready to announce who will take over my responsibilities as the Secretary of ISO/TC 197. The BNQ is working actively on securing funding for their hydrogen activities, including the revision of the Canadian Hydrogen Installation Code (CHIC), and they will make an announcement in the near future.

My contact information after June 29th will be:

jim.ferrero.ca@gmail.com
