Call for experts – ISO/TC 197 WG22

Interested parties are invited to contact the ISO/TC 197 Secretariat by 08 12 2019

Dear members,

As resolved by ISO/TC 197 (resolution number 440) and confirmed in item 7.2 of the meeting minutes of the 2018 plenary meeting, ISO/TC 197 is requesting that all heads of delegations invite qualified and interested experts to join the following working group.

Experts not currently registered in the ISO community may be invited to contact their respective national Member Body (MB) to be able to take part in this work.

WG22, Convenor: Karen Quackenbush, Topic: Gaseous hydrogen fuelling station hoses.

Summary of upcoming work item:

The work will include harmonization with the various parts of the ISO 19880 series of documents. As the current intention is to publish the 19880-5 document soon, work on the first revision is beginning in December 2019.

For more detailed information relative to this WG22, please contact the ISO/TC 197 Secretariat (jonathan.lafontaine@bnq.qc.ca) by 8 12 2019.

Best regards,

Jonathan Lafontaine,
Committee Manager of ISO/TC 197
Bureau de normalisation du Québec
on behalf of the Standards Council of Canada
