Memo - nomination of convenors

Document type: Other committee document

Date of document: 2020-02-03

Expected action: INFO

Background: Please find attached a memorandum for members of TC 197, but notably for all proponents of NWIP with respect to nominating project leaders.

Committee URL: <https://isotc.iso.org/livelink/livelink/open/tc197>

MEMORANDUM

Document N 1157

For distribution to: Members of ISO/TC 197, notably P-members, and Liaisons

Subject: ISO/TC 197 Criteria for nomination and approval of international convenors for new projects

Dear members and liaisons,

To assist proponents of NWIPs per the relevant Resolutions taken at the last plenary meeting in Grenoble, I'd like to communicate the criteria for the nomination and approval by TC 197 of the proposed international convenors.

First is a demonstrated adherence to the ISO Code of Conduct ([click here](#)). This includes the ability to divest from the country and particularly the company interests and act entirely in the best interests of the international community.

Note: it is worth reminding the proponents that ISO develops consensus-based standards in the interests of all international stakeholders, not solely industry standards.

Second is a demonstrated successful experience in a leadership position within a standard development community (at the national or international level) and preferably within ISO/TC 197. For specialized topics, relevant experience in the following liaison international committees and liaison organizations is equally valuable and acceptable: ISO/TC 22, ISO/TC 45, ISO/TC 58, ISO/TC 158, ISO/TC 220, IEC/TC 105, IEC/TC 31, CEN/CLC/JTC 6, CEN/TC 234, CEN/TC 268, CEN SFEM WG Hydrogen, EIGA WG Hydrogen, or HySafe.

Only the candidates that satisfy both the above criteria will be considered for approval by the TC. In this regard, please submit a CV of the proposed convenor together with the revised NWIP.

Thank you kindly for your consideration and please feel free to contact me for any further clarifications,

Jonathan Lafontaine,
Committee Manager of ISO/TC 197
Bureau de normalisation du Québec
on behalf of the Standards Council of Canada
